

**THE  
UNIQUE**

**VISI-FLO**

## The revolutionary Fire hydrant indicator that saves lives!

- Thanks to its blue color as well as to its double reflectors VISI-FLO clearly indicates to firemen the exact location of the hydrant during the day and night time.
- The top indicator tells the flow capacity of the fire hydrant while the bottom part permits to add the reflective identification number of the hydrant.
- Safe, esthetic, easy to install as well as to remove.
- Sturdy but very light compared to any other hydrant indicator.
- Economical: rustproof, paint free and maintenance free!
- Made of a durable UV resistant plastic and equipped with a sturdy fiberglass rod.
- Prevents mechanical damages during snow removal.
- Since one minute can make the difference VISI-FLO could save your life!

Dim.: 10 X 8 inches, 25 X 20,4 cm  
Lettering size: 2 1/8 inches, 5,4 cm

### Material:

Top part made of a UV resistant high density polyethylene (HDP)

Base made of UV resistant nylon (Super Tough)

Double reflectors made of acrylic (2,800", 7,1 cm)

Pultruded fiberglass rod (0.500", 1,3 cm)

Color	Flow indicator	
	Gal	L/min
Light Blue	2190	5680
Green	1460/2190	3785/5975
Orange	735/1459	1900/3780
Red	735 or less	1900 or less
