

# VISILOK™

**Durable, versatile and highly reflective... reduce dry times of waterborne markings**

## VISILOK™ Cuts Waterborne Dry Time More Than Half The Time

- VISILOK is a glass bead intermix system that improves the dry time of waterborne paint so that drop on glass beads are no longer knocked out by traffic.
- Reduce coning and traffic control costs
- Stop detailing cars due to tracking
- Improve performance in damp/humid & cold weather
- Allows for increased paint thicknesses

## Durability

- VISILOK intermix bead systems gives long-lasting reflectivity
- Reduced dry times allow for drop on and intermix beads to be locked in the binder
- VISILOK extends the life of waterborne paint

## Application

- Easy modification to existing paint trucks
- Extend season due to VISILOK System. Stripe in lower temperatures, and in damp weather
- Narrow or curved roads are susceptible to traffic tracking over damp paint. VISILOK reduces tracking by drying paint faster.

## High Build Waterborne Markings

- VISILOK System allows for increased mil thickness without worrying about dry times
- Durable markings utilizing High Build waterborne system
- High-end performance at a very affordable price

**Potters respects the environment by recycling over one billion pounds of glass each year.**

VISILOK will reduce the dry time for waterborne paint to a fraction of the time.

VISILOK durability is shown locking in drop on beads and as the intermix beads are exposed.

The VISILOK System is an easy modification by spraying VISILOK into the paint stream.
