RUBBERTOUGH[®] 360

HEAVY-DUTY DELINEATORS, SIGN POSTS & VERTICAL PANELS

Welcome to a revolution-- A 360 degree revolution.

Safe-Hit is proud to introduce the RubberTough 360 line of heavy-duty delineation and signage.

RubberTough[®] 360 delineator and sign products are composed of a durable two-piece omni-directional hinge and feature a large 3-1/2" post diameter.

Having been successfully tested to withstand multiple vehicle bumper impacts and wheel-overs, they are ideal for areas that need an imposing, must-be-seen presence, yet rebound to vertical when hit. The omni-directional hinge utilizes proven Dura-Post[®] material technology combined with a heavy-duty inner tube to achieve the strong yet flexible design required to rebound larger, heavy posts and signage. Multiple mounting options are available including bolt-down surface mount, portable mat with quick connect pins, and quick-change soil anchors.

- ▶ Rebounds when impacted from any direction.
- ▶ FHWA accepted.
- ▶ Superior stability & reboundability.
- ▶ Reliable galvanized steel bases and anchors have no plastic parts.
- ▶ Heavy Duty thick 3-1/2" diameter sign post.
- ▶ Two-piece soil anchor for quick post replacement.
- ▶ Corrosion and UV resistant.
- ▶ Multiple mounting methods available.
- ▶ Easy to store. Detachable portable base stacks for efficient storage.
- ▶ Assembles and dismantles in seconds with quick-connect pins.
- ▶ Remains in service after multiple impacts.
- ▶ Serviceable hinge.
- ▶ Withstands extreme weather conditions.

For full information on RubberTough 360 Delineator products, see pages 9 and 10.
For full information on RubberTough 360 Sign Systems see pages 15 and 16.

THE PIONEER

AND LEADER IN STATE-OF-THE-ART DESIGN AND MANUFACTURE OF PRODUCTS THAT DELINEATE, MARK, DIRECT AND INSTRUCT.

SAFE-HIT®

DURABLE AND FLEXIBLE FOR MULTI-PURPOSE USE
Safe-Hit's flexible 2 1/4" (57.2mm) diameter posts are constructed of durable linear low density, co-extruded polyethylene with ultraviolet inhibitors. They are available with portable bases, surface mount bases or soil anchors. Safe-Hit posts feature a two piece, self-locking system that reduces installation and maintenance costs. **The Safe-Hit line is ideal for applications with average impact frequency.**

DURA-POST®

HIGH IMPACT, LONG LIFE DELINEATORS
Dura-Post's 3" (76.2mm) diameter delineators are composed of extremely flexible specialty polymer with excellent rebound memory. They are designed for areas with very high impact frequency and have been successfully tested to withstand *over 200 impacts at 60 mph (96.56km)!* The posts remain flexible even at extreme temperatures. **The Dura-Post line is ideal for sites with extreme environments and an excessive number of impacts.**

RUBBERTOUGH 360®

RUBBERTOUGH® 360 DELINEATOR products are composed of a durable two-piece omni-directional hinge and feature a large 3-1/2" post diameter. Having been successfully tested to withstand multiple vehicle bumper impacts and wheel-overs, yet rebound to vertical when hit. The omni-directional hinge utilizes proven Dura-Post® material technology combined with a heavy-duty inner tube to achieve the strong yet flexible design required to rebound larger, heavy posts and signage. Multiple mounting options are available including bolt-down surface mount, portable mat with quick connect pins, and quick-change soil anchors. **The RubberTough 360 line is ideal for sites and situations where larger and imposing heavy-duty delineation is needed.**

Safe-Hit's 2 1/4" (57.2mm) diameter posts are constructed of durable linear low density, co-extruded polyethylene with UV inhibitors. They are designed with an innertube to help withstand vehicular impacts and are available in heights ranging from 18 inches (457.2mm) to 54 inches (1.3716m). Safe-Hit posts come standard with high intensity reflective sheeting. Decals can be used instead of reflective sheeting if desired. See page 11 for details.

SURFACE MOUNT SYSTEMS

Safe-Hit surface mount channelizers and tubular markers are easy to install and come standard with a convenient Surface Mount Pin Lock Base that allows post replacement in 30 seconds. The surface mount posts can be installed on asphalt or concrete using epoxy kits, butyl pads or mechanical anchors. Bases installed using a butyl pad or mechanical anchors can be re-used.

Specify post color and reflective sheeting colors when ordering.

- Standard Post Colors: White, Yellow or Orange
- Custom Colors: Light Gray, Dark Gray, Green, Blue, Black, Brown or Red
- Reflective Sheeting: Standard is high-intensity Silver, Amber or Orange (see page 12 for other reflective options)
- Custom Base Colors: Yellow or Orange

TYPE 1 HAZARD MARKER

Round post, flattened on top with black oval cap, three 3"(76.2m) x 3"(76.2m) reflective patches and Surface Mount Pin Lock Base.

Size		Part No.
48"	1219mm	SH148SMA-YS

TYPE 3 CHANNELIZER

Round post with recessed cap, one 6" (152.4mm) reflective wrap and Surface Mount Pin Lock Base.

Size		Part No.
48"	1219mm	SH348SMA--WS
42"	1066mm	SH342SMA--WS
36"	914.4mm	SH336SMA--WS
28"	711.2mm	SH328SMA--WS
24"	609.6mm	SH324SMA--WS
18"	457.2mm	SH318SMA--WS

TYPE 2 GUIDE POST

Round post, flattened on top with black oval cap, one 3" (76.2mm) x 9" (228.6mm) reflective strip and Surface Mount Pin Lock Base.

Size		Part No.
48"	1219mm	SH248SMA--OS

SOIL ANCHOR SYSTEMS

Safe-Hit's two-part driveable delineators feature a 2 1/4" (57.2mm) post diameter and are used for marking highways, entrances, exits, curves, driveways, fire lanes and parking lots. Decals can be used instead of reflective sheeting if desired. See page 11 for details. Each post on this page includes one 8" (203.2mm), 14" (355.6mm) or 18" (457.2mm) closed or open end soil anchor. Specify post and reflective sheeting colors when ordering.

- Standard Post Colors:** White, Yellow or Orange
- Custom Colors:** Light Gray, Dark Gray, Green, Blue, Black, Brown or Red
- Reflective Sheeting:** Standard is high-intensity Silver, Amber or Orange (see page 12 for other reflective options)

TYPE 1 HAZARD MARKER

Round post, flattened on top with black oval cap, three 3"(76.2mm) x 3"(76.2mm) reflective patches and Driveable Soil Anchor.

Size		Part No.
48"	1219mm	SH148GP3--WA

ANCHORS, ACCESSORIES & TOOLS

Safe-Hit's driveable posts come standard with an 18" (457.2mm) closed end, driveable Soil Anchor. You may substitute other anchor sizes. In heavy soil a 14" (355.6mm) or 18" (457.2mm) anchor is recommended. In sandy or loose soil a 24" (609.6mm) anchor should be utilized. The 8" (203.2mm) anchor is used for concrete applications.

SOIL ANCHORS

Size	Type	Part No.	
8"	203.2mm	Open End Concrete (GP1)	SHA1-080E-GL
14"	355.6mm	Closed End Anchor (GP3)	SHA3-018C-GL
14"	355.6mm	Open End Anchor (GP4)	SHA4-180E-GL
18"	457.2mm	Closed End Anchor (GP5)	SHA5-14C--GL
18"	457.2mm	Open End Anchor (GP6)	SHA6-140E-GL
24"	609.6mm	Open End Anchor (GP8)	SHA8-240E-GL
24"	609.6mm	Closed End Anchor (GP9)	SHA9-24C--GL

 Anchor Plug For all soil anchors	SHAP--04A-BL

MANUAL INSTALLATION TOOLS

MANUAL ANCHOR INSTALLATION TOOL

The manual installation tool drives anchors into the soil. Designed to maintain the correct inside diameter and shape of the installed soil anchor.
Part No. SHTOL-30-6-X

ANCHOR STRAIGHTENING TOOL

Used to straighten anchors installed out of plumb.
Part No. SHTOL-60--ST

POST REMOVAL TOOL

Post maintenance slotted T-Bar tool aides in the removal of posts from anchors.
Part No. SHTOL-61--MT

MAINTENANCE KIT

Includes cutting tool, replacement blade, adjustable hacksaw and channel pliers. These tools are used to remove broken or damaged posts from anchors.
Part No. SHTOL-50--MT

SH-51 Cutting Tool

POWER INSTALLATION TOOLS

If using a jackhammer, order a jackhammer shank and an SH6 tool.

If using a piston cylinder hammer, order an adapter drive cap and an SH6 tool.

SHANKS

Part #	Tool	Size
SHTOL-07--HT	Pionjar	7/8 x 4 1/4
SHTOL-53--HT	Stanley	7/8 x 3 1/4
SHTOL-54--HT	Thor	1 x 4 1/4
SHTOL-55--HT	Bosch	1 1/8 x 6
SHTOL-56--HT	Ingersol	1 1/4 x 6

ADAPTER DRIVE CAP

SHTOL-57--HT	Stanley	PD-45
SHTOL-58--HT	Fairmont	H4825C
SHTOL-59--HT	Rhino	PD-50

PILOT HOLE TOOL

Self-cleaning pilot hole tool for use with power equipment to provide pilot holes for Safe-Hit soil anchors in compacted or adverse soils. Requires drive shank or ADAPTER for specific power tool used.
Part No. SHTOL-08--HT

SH6 DRIVE TOOL

Interface from shanks and/or adapters to soil anchor (always needed)
Part # SHTOL-06--HT

SOIL ANCHOR

(ordered separately)

More available. Call for details.

Dura-Post delineators are composed of a highly durable specialty polymer and feature a 3" (76.2mm) post diameter. They are designed for areas with a high impact frequency and have been successfully tested to withstand over 200 impacts at 60mph (96.56 kmh). The post remains extremely flexible even at extreme temperatures. Decals can be used instead of reflective sheeting if desired. See page 11 for details. Specify post color and reflective color when ordering.

DURA-POST® SYSTEMS

Standard Post Colors:	White, Yellow or Orange
Custom Post Colors:	Blue, Green, Brown, Black, Red or Gray
Reflective Sheeting:	Standard is high-intensity Silver, Amber or Orange (see page 12 for other reflective options)
Height:	Custom heights less than 36" (914.4mm) available. Call for details.

Dura-Post With Reflective Band(s) and Base/Anchor

Round 3" (76.2mm) diameter 36" (914.4mm) post with one, two or three high-intensity reflective bands for omni-directional reflectivity. Includes surface mount base or soil anchor.

SURFACE MOUNT

3" (76.2mm) Band	Orange Post	White Post	Yellow Post

Two Vertical (3"x12")	76.2mm x 304.8mm	SHLQ24GP3E1WS-12

BASE & ANCHOR OPTIONS

Dura-Post flexible channelizers can be mounted on asphalt or concrete or anchored in soil. The Surface Mount Base can be secured to the asphalt or concrete surface using an adhesive pad or epoxy kit. The Soil Anchor can be driven into the ground using the Manual Soil Anchor Driver or a power tool. The 8" (203.2mm) anchor is recommended for concrete, the 14" (355.6mm) and 18" (457.2mm) anchors for normal soil and the 24" (609.6mm) for loose or sandy soil. Specify anchor type when ordering.

SURFACE MOUNT BASE WITH LOCK PIN

24"	609.6mm	SHL-240E-GL

Fasteners included.

FOR ADHESIVES AND INSTALLATION TOOLS, SEE PAGES 4 AND 6

RubberTough® 360 delineator products are composed of an innovative and durable two-piece omni-directional hinge and feature a large 3-1/2" post diameter. The omni-directional hinge utilizes proven Dura-Post® material technology combined with a heavy-duty inner tube to achieve the strong yet flexible design required to rebound larger, heavy posts and signage.

POST SYSTEMS

RubberTough posts are available with a Surface Mount Galvanized Steel Screw Down Hinge Bracket (SMB), a driveable soil spike (GPS) or a portable base. (PCD)

Standard Post Colors: White, Yellow or Orange
Custom Colors: Gray, Green, Blue, Black, Brown or Red
Reflective Sheeting: High-intensity Silver, Amber or Orange
 (See pages 11 and 12 for additional decal and reflective options.)

RUBBERTOUGH 360 COMPONENT PARTS

Component	Description	Part No.
Self-Tapping Masonry Screws	Galvanized steel screws for surface mount posts.	SRKITSMS-04
		
Portable Base	Includes 38lb rubber mat, mounting plate and locking pins.	SRPCD-1--BL
		
Soil Anchor Kit	Includes two bolts, two washers, two locking washers and instructions.	SRKITGPA-24
		

Many more component parts available. Contact your Safe-Hit representative for details.

MANUAL AND POWER INSTALLATION TOOLS

The RubberTough 360 product line uses the same Safe-Hit manual and power installation tools you may have already invested in. See page 6 for a complete listing!

Reflective Sheeting & Decals

Safe-Hit, Dura-Post and RubberTough 360 posts are available with decals and labels as an alternate choice to the standard reflective sheeting. A variety of special reflective arrangements, custom labels, customer supplied labels and barricade tape can be applied upon request.

*PRODUCT LINE KEY:

Safe-Hit® SH

Dura-Post® DP

RubberTough® RT

Safe-Hit's flexible sign posts and signs are made of durable plastic and are designed to withstand vehicular impacts. Each sign post is provided with internal sign mounting hardware, as well as screws and washers for mounting signs.

No more dented, rusted signs and bent poles!

FLEXIBLE SIGN SYSTEMS

Sign Posts are available to fit all Safe-Hit bases and anchors (see pages 4 and 6). See post options below.

Standard Post Colors: White, Yellow, Orange
 Custom Post Colors: Gray, Green, Blue, Black, Brown, Red

SURFACE MOUNT SIGN POST

48" (1219mm) Round post with built-in sign hardware, mounting screws and Surface Mount Pin Lock Base (SMA).

Size	Part No.
18"	SX348SMA18WX
24"	SX348SMA24WX

Double Sided Hardware: SX348SMA24WX-D

SOIL ANCHOR SIGN POST

48" (1219mm) Round post with built-in sign hardware, mounting screws and 18" (457.2mm) Driveable Soil Anchor (GP3).

Size	Part No.
18"	SX348GP318WX
24"	SX348GP324WX

Double Sided Hardware: SX348GP324WX-D

PORTABLE SIGN POST

48" (1219mm) Round post with built-in sign hardware, mounting screws and portable 18 lb. (8.16kg) Rubber Base (PSB).

Size	Part No.
18"	SX348PSB18WX
24"	SX348PSB24WX

Double Sided Hardware: SX348PSB24WX-D

Other signs and custom signs may be available. Call for details.

RubberTough 360 sign systems provide a heavy-duty, flexible and low maintenance alternative to traditional steel signage. Each sign post has a unique, durable two-piece omni-directional hinge, which allows the sign to withstand multiple impacts and keep bouncing back. The signs are impact resistant because they are made from a flexible plastic that can easily bend during impact. Custom color posts available. Call for details.

SIGN POST OPTIONS

PORTABLE

Includes 3-1/2" (88.9mm) sign post with single sided sign hardware and a 34" x 15" x 2-1/8" (863.6mm x 381mm x 56mm), 38lb (17.24kg), recycled rubber mat with quick release hardware. Sign Panels not included and must be ordered separately.

Size	Part No.	Panel Size
36" 914.4mm	SR936PCD32WXW	18" - 32" 457.2mm - 812.2mm
48" 1219mm	SR948PCD44WXW	18" - 44" 457.2mm - 1118mm

Double Sided Hardware available.

SOIL ANCHOR SPIKE

Includes 3-1/2" (88.9mm) sign post with hardware to attach a heavy-duty soil anchor spike. See page 6 for soil anchor installation tools. Sign Panels not included and must be ordered separately.

Size	Part No.	Panel Size
36" 914.4mm	SR936GPS32WXW	18" - 32" 457.2mm - 812.2mm
48" 1219mm	SR948GPS44WXW	18" - 44" 457.2mm - 1118mm

Double Sided Hardware available.

BOLT-DOWN SURFACE MOUNT

Includes 3-1/2" (88.9mm) sign post, single sided sign hardware, plastic base and connectors to attach post to base. Can be mounted to asphalt or concrete using galvanized steel self-tapping masonry screws.

Double Sided Hardware available.

Size	Part No.	Panel Size
36" 914.4mm	SR936SMB32WXW	18" - 32" 457.2mm - 812.2mm
48" 1219mm	SR948SMB44WXW	18" - 44" 457.2mm - 1118mm

QUICK RELEASE PORTABLE BASE

Quick release mechanism requires no tools and makes set up and tear down simple.

"The portable sign system is easy to store and transport!"

HEAVY DUTY FLEXIBLE VERTICAL PANELS & SIGNS

RubberTough panels and signs are available for use with Surface Mount, Soil Anchor and Portable Systems.

WHITE BLANK PANELS

White 0.125" (3.175mm) thick flexible panels with no reflective panels or decals applied. If you want to add your own reflective or decals, please follow the reflective or decal manufacturer's instructions for adhering their product to plastic panels to ensure high quality performance.

Specialty Markers

ISLAND MARKERS / K & Q MARKERS

Island markers are ideal for delineating traffic islands, entryways or wherever special markers are needed. All are available in surface and soil mount versions.

MULTI-PURPOSE SAFE-HIT

K-MARKER SURFACE MOUNT

Round white post, with 15" x 6" (381mm x 152.4mm) target plate attached with one 12" x 6" (304.8mm x 152.4mm) reflective strip on front, two 1" x 6" (25.4mm x 152.4mm) patches on back and a 6" (152.4mm) wrap around post. Includes surface mount pin lock base.

Size		Part No.
18"	457.2mm	SH718SMA-WA
24"	609.6mm	SH724SMA-WA

K-MARKER SOIL ANCHOR

Round white post, with 15" x 6" (381mm x 152.4mm) target plate attached with one 12" x 6" (304.8mm x 152.4mm) reflective strip on front, two 1" x 6" (25.4mm x 152.4mm) patches on back and 6" (152.4mm) wrap around post. Includes Driveable Soil Anchor.

Size		Part No.
18"	457.2mm	SH718GP3-WA
24"	609.6mm	SH724GP3-WA

HIGH IMPACT DURA-POST

K-MARKER

3" x 18" (76.2mm x 457.2mm) post with a 15" x 6" (381mm x 152.4mm) target plate attached with one 12" x 6" (304.8mm x 152.4mm) reflective strip on front, two 1" x 6" (25.4mm x 152.4mm) patches on back and a 6" (152.4mm) wrap around post.

Size		Part No.
18"	457.2mm	SHLK18SMAWA-03

VERTICAL K-MARKER

4" x 21" (101.6mm x 533.4mm) post with three 3" (76.2mm) squares of high-intensity reflective sheeting arranged vertically on the front side and one 3" (76.2mm) square on the back.

Size		Part No.
21"	533.4mm	SHLVK21SMAWA-03

Q-MARKER

4" x 24" (101.6mm x 609.6mm) with three 3" (76.2mm) bands of hi-intensity reflective sheeting.

Size		Part No.
24"	609.6mm	SHLQ24SMAE2WA-03

Base Part Number: SLSMA-1---BL

GUARDRAIL DELINEATORS

GUARDRAIL DELINEATORS

Guardrail delineators are highly visible, reflective devices mounted directly to the guardrail structure. They enhance both day and night delineation. Posts include appropriate hardware for installation to wood or steel posts.

MULTI-PURPOSE SAFE-HIT

WOOD POSTS

Safe-Hit Guardrail Delineator
White post, flattened on top with one 3" x 9" (76.2mm x 228.6mm) Silver reflective strip. Includes two galvanized nails for attaching to wood guardrail posts.

Size	Part No.
27" 685.8mm	SH227GRD-WS

STEEL POSTS

Safe-Hit Guardrail Delineator
White post, flattened on top with one 3" x 9" (76.2mm x 228.6mm) Silver reflective strip. Includes two self-tapping screws for attaching to steel guardrail posts.

Size	Part No.
27" 685.8mm	SH227GRS-WS

HIGH-IMPACT DURA-POST

Use the Dura-Post guardrail delineator in applications that could be frequently impacted or are in extreme environments. All 3" round Dura-Post guardrail delineators come with a steel guardrail mounting tube, self-tapping screws for wood or steel guardrail posts, and delineator fasteners. Custom heights up to 36" and other colors such as orange are available. Call for details.

Size	Color	Part No.
24"	609.6mm	White SH24GRS-WS-09

With 3 X9 Silver High Intensity Reflective

Size	Color	Part No.
24"	609.6mm	Yellow SH24GRS-YA-09

With 3 X9 Amber High Intensity Reflective

BARRIER MARKERS

SAFE-HIT BARRIER MARKERS are used to delineate Jersey Barrier and can be used as a mile marker, drain marker or call box marker.

Yellow or white post, flattened on top with one 3" x 9" (76.2mm x 228.6mm) Amber reflective strip and an RBM Base.

Size		Part No.
Yellow		
16"	406.4mm	SH216RBM-YA
24"	609.6mm	SH224RBM-YA
White		
16"	406.4mm	SH216RBM-WS
24"	609.6mm	SH224RBM-WS

FIRE HYDRANT MARKERS

SAFE-HIT HYDRANT MARKERS help fire department personnel quickly locate hydrants during heavy snow or when hydrants are located in tall vegetation areas. They also help reduce the risk of damage during snow plowing operations. The flexible post does not obstruct access to the hydrant.

Part	Description	Size		Part No.
FIRE HYDRANT MARKER - With Mounting Bracket	Blue post, flattened on top with one FHM decal and FHM mounting bracket	48"	1219mm	SH248FHM--UL
FIRE HYDRANT MARKER - Soil Mount Anchor	Blue post, flattened on top with one FHM decal and 18" (457.2mm) driveable anchor	48"	1219mm	SH248GP3--UL
FIRE HYDRANT MARKER - Surface Mount Anchor	Blue post, flattened on top with one FHM decal and Surface Mount Pin Lock Base (SMA)	48"	1219mm	SH248SMA--UL
EXTRA FHM DECAL	For double-sided marking	3" x 12"	76.2mm x 304.8mm	SH-MD0150

CERTIFIED AIRPORT MARKER SYSTEMS

Safe-Hit reboundable airport markers are tested and certified by ETL to the FAA's L-853 standard and are certified by ETL to meet the specifications of the FAA Advisory Circular: 150/5345-39C.

All airport markers utilize hi-intensity retroreflective sheeting. The posts are made of co-extruded polyethylene with U.V. inhibitors and can be installed in/on soil, asphalt or concrete. Safe-Hit Airport Markers utilize only high strength plastic fasteners resulting in a product that is superior in corrosion resistance and long term performance. This combined with the self restoring nature of the Safe-Hit Airport Marker helps keep life cycle costs among the lowest in the industry.

SNAP-IT™ & WRAP-IT™ REFLECTORS

Safe-Hit Snap-It and Wrap-It products are unique reflectors that attach with ease to practically any post or similar type product that needs quick and significant visual enhancement.

- Easiest and quickest installation of visibility enhancement reflectors: No need for specialty fasteners and tools. The Snap-It model literally snaps around most post types (especially U- Channel type posts). The Wrap-It is ideal for odd shaped, large posts or even small trees!
- Full 360° visibility with one piece design.
- Made from the same durable plastic material as Safe-Hit's reboundable delineators. No more rusted and dented metal reflector devices.
- Colored Snap-It material appears uniform and provides daytime visibility on Snap-Its that are minimally reflectorized.
- Hardware fastener kits available.

1" REFLECTOR SNAP-IT

1" wide, high-intensity reflective material vertically applied down length of Snap-It.

OPTIONS:
Snap-It colors: yellow, orange, white, blue, red, green
Reflective: amber, orange, silver, blue, green, red, fluorescent yellow-green, fluorescent orange & bright white.

Length: 1, 2, 3, 4, 5 or 6 ft.
Part # Shown: SRS120100031121V

3" REFLECTOR SNAP-IT

3" wide, high-intensity reflective material vertically applied down length of Snap-It.

OPTIONS:
Snap-It colors: yellow, orange, white, blue, red, green
Reflective: amber, orange, silver, blue, green, red

Length: 1, 2, 3, 4, 5 or 6 ft.
Part # Shown: SRS12W10S033121V

FULL REFLECTOR SNAP-IT

7" wide, high intensity. Provides maximum reflective area for maximum visibility in all directions.

OPTIONS:
Snap-It colors: yellow, orange, white, blue, red, green
Reflective: amber, orange, silver, blue, green, red

Length: 1, 2, 3, 4, 5 or 6 ft.
Part # Shown: SRS12R10R037121V

BANDED SNAP-IT

3" bands spaced 6" apart provide 360° visibility with economical use of reflective.

OPTIONS:
Snap-It Colors: yellow, orange, white, blue, red, green
Reflective: amber, orange, silver, blue, green, red

Length: 1, 2, 3, 4, 5 or 6 ft.
Part # Shown: SRS24R10R031033H

DECAL SNAP-IT

Informative reflective decals are professionally applied to a heat treated Snap-It.

OPTIONS:
Decals: Fire Hydrant, Reserved Marker, Mile Marker and many in-stock & custom designs.

Snap-It Colors: yellow, orange, white, blue, red, green
Length: 1, 2, 3, 4, 5 or 6 ft.
Part # Shown: SRS12W10X240000X

WRAP-IT

•Available in all colors of high-intensity reflective.
•Provides maximum reflective surface area and maximum directionality on larger or odd shaped steel and wood posts.
•Available as left or right hazard warning.

OPTIONS:
Length: 1, 2, 3, 4, 5 or 6 ft.
Part # Shown: SRW12Y33A037121V

Specialty Products

SPEED BUMP

Color: Yellow

Size	Part No.
6' 1.83mm	SHCCSB-06-YX

Mounting hardware included.

PARKING STOP

Colors: Gray, Blue, Yellow

Size	Part No.
4' 1.22mm	SHCCPS-04-YX
6' 1.83mm	SHCCPS-06-XX

Mounting hardware included.

PORTABLE STANCHION & CHAIN

An easy and convenient method to control pedestrian traffic, both indoors and outdoors. Bases can be filled with sand or water for increased stability and wind load.

Plastic posts and chains are available in White, Black, and Yellow.

EMERGENCY / PORTABLE STOP SIGN

Part No.	SX348PSB-SSWX
----------	---------------

- Versatile emergency traffic control
- Easily transported in vehicles
- Portable or temporary signage
- Easy to assemble or disassemble
- 18" x 18" (457.2mm x 457.2mm) Flexible sign

Glarescreen System

Safe-Hit Glarescreen is a vertical blade delineator system that is used to delineate both temporary and permanent medians. Positioned on the top of median barriers, this system minimizes traffic slow downs in work zone areas. Made of polymeric materials, the blades are flexible and durable, and fit into a specially-designed plastic blade base and base spacer system. The entire system then mounts to the top of median barriers to create a shield for the length of the median. Reflective sheeting may be added to the blades.

Glarescreen Application

Uniquely designed for safety and modular economics, Safe-Hit's Glarescreen System is the ideal for delineating both temporary and permanent median barriers.

Multipiece Vertical Blade Delineator System

Orange and white glarescreens are ideal for highlighting workzones

- Available in Green, Orange and White.
- 24" (609.6mm) and 30" (762mm) standard height (custom heights available).
- Reduces traffic jams in work zones by limiting cross-median visibility.
- Barrier wall can be relocated without removing the glare screen.
- Adapts to any size barrier, temporary or permanent.
- MODULAR
- Fast, easy installation and replacement.
- Safe, durable, high-impact polymer.
- Allows easy access to highway for maintenance or emergency crews.
- Easy repair if needed.

BARRACUDA HEAVY-DUTY PORTABLE BARRICADE

The BARRACUDA is the premier interconnecting barricade that is highly effective as a longitudinal channelizing barricade, traffic delineator and visual marker.

Modular in design, the length of the BARRACUDA system can be varied for specific applications. The modules are pinned together and swivel for easy positioning. Once in place, the modules can be filled with water or sand to add weight and increase the energy absorbing capabilities of the modules.

Water capacity is 145 gallons (1,290 lbs) [(549L) (585kg).] Barricade size is 84" L x 21" W x 32"H (2.13m x .533m x.813m). [(78" (1.981m) length pin to pin).]

The BARRACUDA features a heavy-duty tri-beam design for extreme durability.

Each module weighs less than 90 lbs (40.82kg) and can be easily unloaded and positioned by two people. The modules are stackable for convenient storage.

Standard Colors: White, Orange, Yellow and Light Grey
 Custom Colors: Call for details

STANDARD MODULE PACKAGE

Robust, four-knuckle interlocking hinge

- One 84" (2.13m) module (78" (1.981m) pin to pin)
- One connector pin
- One threaded inlet and plug
- One threaded drain and plug
- Built-in fork lift ports

Description	Part No.
White	SHBAR0000-WX
Orange	SHBAR0000-OX
Yellow	SHBAR0000-YX
Light Grey	SHBAR0000-MX
ABS Connecting Pin	2021200-0000
1 1/2" Drain Plug	420504
3" Fill Plug	420505

Forklift holes for easy transport

Wide flat top for efficient storage

QUICK-CHANGE KONAPOST®

The KonaPost is an excellent alternative to traditional orange cones. It is ideal for applications where orange cones or markers must be quickly deployed in specific patterns on a regular basis. The flexible KonaPost's 6" (152.4mm) plug is easily inserted into a hot-dip galvanized steel receptacle that is recessed into the pavement. The posts can be deployed when needed and quickly removed by lifting them out of the pavement receptacles.

CONES	KONAPOSTS
Haphazard	ACCURATE
Damaged	DURABLE
Lost	SECURE
Random	CONSISTENT
Inadequate	EFFECTIVE
Cheap, Quick Fix	LONG TERM VALUE
Safety Risk And Increased Liability	SAFER

Tested to withstand over 200 impacts and rollovers!

HEAVY DUTY KONAPOSTS

Konapost Part #	Size
SHLG19GPR--YX (Yellow)	4" x 19" w/6" plug
SHLG19GPR--OX (Orange)	(101.6mm x 482.6mm)(152.4mm)
SHLG19GPR--WX (White)	

Receptacle Part #	Size
2744000-0000	8" depth 4 1/2" x 4 1/2" flange (203.2mm)(114.3mm x 114.3mm)

Epoxy Kit	Part # 2023500-0000
------------------	---------------------

Install and remove in seconds by placing probe into receptacle! Specify color and reflective sheeting when ordering.

Standard Colors: Yellow, Orange and White (Custom Colors Available Reflective Sheeting) – see page 12

THE RETRACTOR®

Call today, to find out how the Retractor System can be custom configured for your specific application.

The Retractor is an automatic retractable lane delineator that guides and channelizes traffic at locations requiring repetitive lane usage or traffic pattern changes. The Retractor's durable and flexible delineator post can be automatically raised into position from a remote location to provide positive guidance to traffic. When not in use, the system's electric motor lowers the delineator post into a recessed cartridge. Post height is 36" (914.4mm) with a 3" (76.2mm) diameter.

MULTI-PURPOSE

- ▶ The industry standard in delineation, channelization and marking.
- ▶ Post-in-post design significantly improves performance.
- ▶ Use in areas with average impact frequency.

HIGH-IMPACT

- ▶ The best performing delineator made.
- ▶ Tapered wall design and urethane material enables hundreds of impacts and rollovers at 60 mph (96.54 km/h).
- ▶ Use in areas where posts are likely to experience extreme abuse.

HEAVY-DUTY

- ▶ The largest reboundable delineator post in the industry.
- ▶ Innovative omni-directional hinge.
- ▶ Use where larger and imposing heavy-duty delineation is needed.
